GLOBAL HYUNDAI OUTDOOR SPECIALIST

Sydney, Australia. Barcelona, Spain.
Tokyo, Japan... Display Technology from
Hyundai IT shines on the landmarks of
major global cities.

Cutting-edged Technical Expertise

Equipped with world's best outdoor signage technology, Hyundai IT offers the best quality products. Long experienced engineers and technical expertise in the areas of circuits, instrument, manufacturing technology as well as firmware based on its professional research development center and state of art manufacturing facility are our key engines.

Global Pioneer in Trustworthy

Having supplied various kinds of display products to US government organizations, Hyundai IT has been grown up as a global supplier. The world's first launched 75inch outdoor interactive board proved its outstanding technology as well. Hence, Hyundai IT began supplying 3,500nits of 86inch ultra-high brightness outdoor interactive signage in the name of "CINÉ OUTDOOR" to across the board global clients.

CINÉ OUTDOOR

The Best Balance for New Luxury Life

Enjoy your favorite Movies, Games and Web surfing on a wide screen. No matter where you are, whether it rains or snows, CINÉ OUTDOOR will deliver the crystal clear images and outdoor theater sound. Experience a new luxury life balanced work and play with CINÉ OUTDOOR, which fits perfectly with all outdoor areas including swimming pools, golf courses and gardens.

High Brightness of 3,500nits

4-Seasons Usage

Beyond the Limits of Outdoor Display

Even in the direct sunlight and extreme rainfall or heavy snows, Hyundai IT's outdoor digital signage provides perfect user experience and confidence.

- Enhanced readability throughout ultra-brightness and fine resolution.
- Dust and waterproof (IP65-IP66)
- Intelligent temperature and brightness control system
- 24/7 Operation
- Easy maintenance
- Wall-mount (horizontal & vertical) and kiosk (single & double sided) types are available.

OUTDOOR DIGITAL SIGNAGE

Strong durability at extreme outdoor conditions

With Hyundai IT's unique technology, our Outdoor Digital Signages provide high durability and 7/24 operation even in the direct sunlight, heavy rainfall and wind, having brighter and clearer images.

Weatherproof and Stable Operation

Hyundai IT's Outdoor Digital Signages are equipped with the internal air circulating system, which prevents black-out by direct sunlight. While it's intelligent temperature-control system assures stable operation even in extreme outdoor conditions.

Dust and Waterproof IP65-IP66

Hyundai IT's certified IP65-IP66 Outdoor Digital Signages perfectly protect the machines and deliver clear information even in the heavy rain or dust in the wind.

Ultra-High Brightness

Equipped with ultra-high brightness screens up to 5,000nits, Hyundai IT's Outdoor Digital Signages provide excellent visibility. Also, the anti-glare front glass minimizes reflection of the natural or surrounding light in any environment.

Interactive Touch Screen

Embedded with touch solution, our Outdoor Digital Signage helps interactive communication.

Perfect Protection from External Shock

Anti-vandal glass protects the screen from various kinds of strong external shocks.

Easy Installation and Maintenance

Our Outdoor Digital Signage can display both vertical and horizontal, accordance with the display contents and installation environments. Its front-open design structure allows convenient operation and easy maintenance.

References

Outdoor Digital Signage can be installed depending on the contents displayed or the place of use. Wall-mount types can be displayed vertically or horizontally, while kiosk (vertical) types are offered with single & double-sided options.

VIDEO WALL

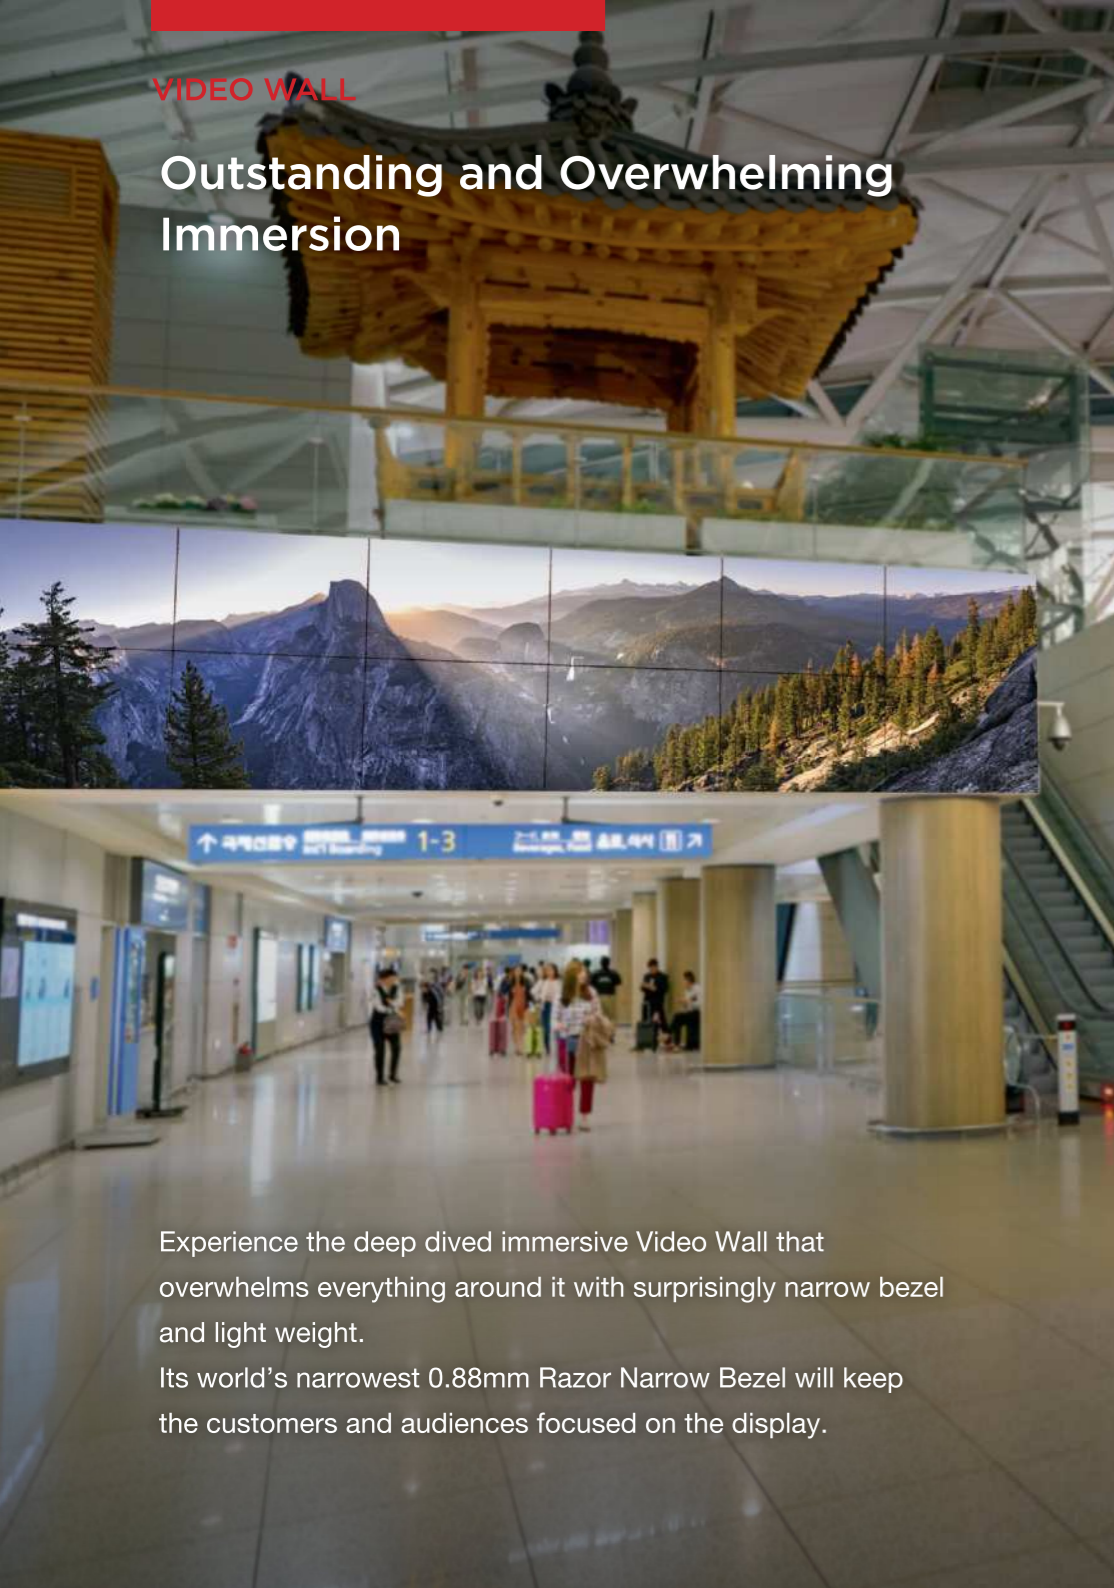

Thinner Bezel Lager Imagination

Experience a new era with extremely narrow bezel!

Hyundai IT's 0.88 mm Razor Narrow Bezel (RNB) technology will expand your imagination.

- Razor-narrow B to B of 0.88 mm
- Remote control on the front
- Direct LED panel with wide viewing angle and high resolution
- Uniformity of brightness in any environment
- 3 ranges by bezel sizes
- RNB(0.88mm), ENB(1.8mm), UNB(3.5mm)

VIDEO WALL

Outstanding and Overwhelming Immersion

Experience the deep dived immersive Video Wall that overwhelms everything around it with surprisingly narrow bezel and light weight. Its world's narrowest 0.88mm Razor Narrow Bezel will keep the customers and audiences focused on the display.

Remote Control in the Front

Hyundai IT's Video Wall is controlled easily by remote controller in the front without any device.

0.88mm Bezel Delivers Seamless View

The World's narrowest 0.88mm Razor Narrow Bezel provides seamless & immersive views with no limit of displays.

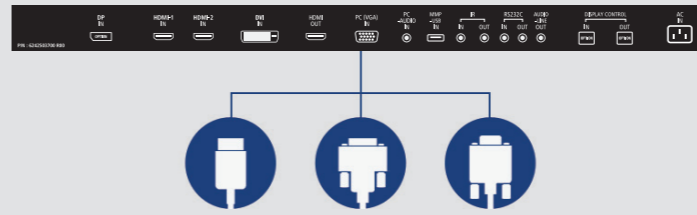

Color Unification by Calibration Technology

The accurate calibration of brightness & color temperature minimizes deviation between displays regardless of number of screens, Video Wall will always deliver even and uniformed color.

Convenient Connectivity

HDMI, DVI, D-SUB & DP Port/RJ45(option) enable connect with any external devices. Ports can be customized on customer's request.

Wide View Angle

Equipped with an omnidirectional 178° IPS panel, Hyundai IT's Video Wall offers clear and bright images without color distortions from any angle.

Slim Design, Light Weight

Hyundai IT's Video Wall can reduce back spaces based on slim thickness and light weight enables easier installation and maintenance wherever you want to locate.

References

The immersive screens guide you beyond your imagination. Enjoy our durable, foolproof technology without image retention or glare.

The different, The Superior Solution

Moved into indoors, Hyundai IT's display technology becomes even more wonderful and fantastic.

Unique sizes and shapes of stretched displays can deliver excellent readability and flexibility as well as easy installation. This distinct will grab the attention of the public & individuals in any business environment.

- UHD, 4 times fine resolution than Full HD
- Free of distortion from any angle in IPS panel
- Metal frame assures outstanding durability
- Automatic brightness control feature & remote controller
- Diverse screen formats including 32:9 stretched type
- Long life cycle of 50,000 hours are guaranteed

INDOOR DIGITAL SIGNAGE

Magic of Showcase in the Display

UHD display, 4 times fine resolution than FHD, can deliver true images and exceptional readability.

Hyundai IT's Indoor Digital Signages provide both vertical & horizontal type of displays so that can deliver multiple contents simultaneously in different sizes and shapes.

Special & Unique

A variety of sizes are offered from 32:9 wide stretch screens to 88inch ultra large screens. Surprise your customers with a new experience utilizing special size screens that can be installed in any direction.

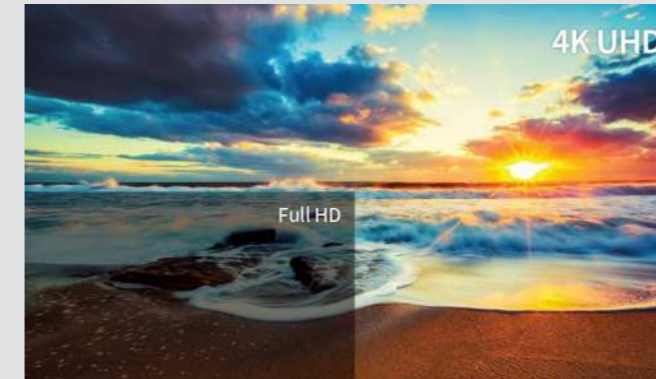

High-Brightness Slim Design for Show Windows

With the brightness of up to 3,000nits & outstanding contrast range which guarantee high visibility, you can deliver the message to the customers throughout window displays that directly face the sunlight.

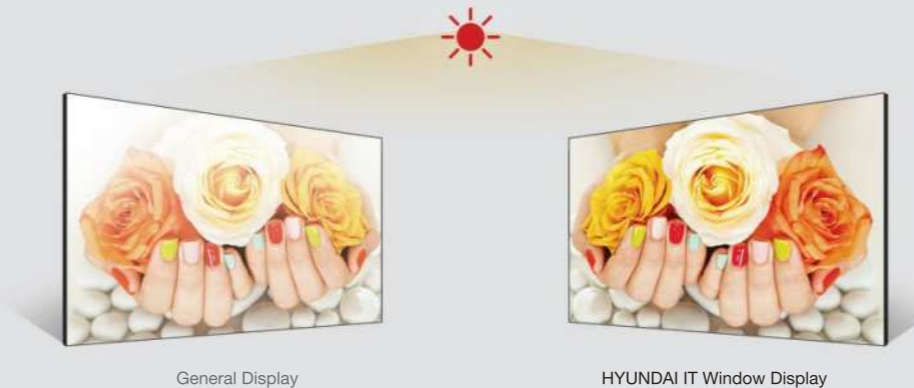

UHD, 4 times fine resolution than FHD

Ultra-high definition screens deliver vivid images throughout rich and bright colors. High readability ensures effective information and contents.

Automatic Brightness Control System

Automatically adjusts brightness in accordance with the surrounding luminance in order to prevent glare. This technology minimizes power consumption and extends the display's lifespan.

Highly Durable Metal Frame

Made of professional high-brightness display and industrial grade metal frames, Hyundai IT guarantees high durability.

Customized Design meets Different Needs

Any of your requirements can be tailored to suit even single or double sided which perfectly matches your desire. Make your own design and devices.
